AS TO OUR RESPONSIBILITY

We publish a letter from THE DROVERS NATIONAL BANK, the leading financial institution of the WORLD-FAMED UNION STOCK YARDS, of Chicago.

CAPITAL $250,000. SURPLUS $100,000.

The Drovers National Bank

UNION STOCK YARDS,

SOLVA BRINTNALL, President.
JOHN BROWN, Vice-President.
WM H. BRINTNALL, Cashier.
WM A. TILDEN, Asst. Cashier.

Chicago, Ill. Jan. 7, 1899.

TO WHOM IT MAY CONCERN:-

We take pleasure in stating that the Chicago House Wrecking Co., who is a customer of this bank, is a wide-awake, enterprising business institution. We understand that their specialty consists in buying largs stocks of all kinds of goods, from Receivers, Assignees, and others who have desirable products to dispose of at a low price for cash. Their extensive warehouse at the corner of 35th & Iron Sts., in this city, and the large number of people whom they are able to keep employed, gives them ample facilities for doing a very large business. The officers of the Company are personally known to us, and we believe them to be first-class business men, who will carry out any contracts they may make.

Yours truly,

Wm A. Tilden

Ass't Cashier.

Our business and its possibilities
....Quickly appeals to those who seek

The Greatest Value for Their Money.

WE are originators of new ideas. Departing from the usual custom of paying the manufacturer what he considers to be a *fair* profit on his wares, we turn our attention to those merchants who, through lack of business qualifications, or lack of capital, or of the varied other "*lacks*," find themselves unable to carry on this "struggle for gain," and by reason of *our spot cash* offers, we buy our goods far below the original cost of production. It is merely the application of an old adage, "one man's loss is another man's gain."

Our aim is to be the CHEAPEST HOUSE ON EARTH. How true this aim, is evidenced by comparing our prices with others.

All our goods are bought at Sheriffs', Receivers', Trustees', Assignees' and Manufacturers' Sales. The vast field that we cover and the enormous possibilities before us, can be readily demonstrated.

It is an undisputed fact that of the great army of retail merchants who launch into mercantile enterprises, scarcely eight per cent. achieve success. Copying from the January, 1899, reports of "Bradstreet's," we note the significant fact that during the year 1891 there were 14,210 business failures in the United States and Canada; during 1892, 11,952; during 1893, 17,286; during 1894, 14,588; during 1895, 14,874; during 1896, 17,298; during 1897, 15,008; during 1898, 13,085. Think of it in eight years, **one hundred and eighteen thousand three hundred and one business failures.** Further comment is useless, these figures tell the story, and tell it well.

We handle, in this way, almost everything under the sun. Our warehouses and yards are vast storehouses of the best the country produces. The key-note of our success can easily be found by considering the enterprise displayed by us in the past. We purchased and dismantled the World's Fair buildings, the original cost of which was over $33,000,000.00; the Chicago Post Office and Sub-Treasury building, the original cost of which was over $7,000,000.00, and many other noted structures.

It will pay you to carefully note the bargains we offer in the following pages in Dry Goods, Hats and Caps, Notions, Crockery, etc., etc. We are constantly buying these goods at different sales, and our prices speak for themselves. The goods are **guaranteed strictly brand new and perfect.** We give you exact descriptions on everything. We misrepresent nothing. Our statements are absolutely true.

If you have not received our regular Catalogue giving low prices on Iron, Roofing, Pipe, Farm and Garden Tools, Lumber, Mill Supplies, Plumbing of all kinds, Machinery and material in general, write for it at once.

We also publish a Monthly Bulletin, showing in detail the various items purchased during the month. We mail it regularly on application.

Our Wonderful Plant and How to Reach It

We have the largest mail order establishment in the country. Our warehouses and yards occupy 500,000 square feet of space. Do not fail to call on us when in Chicago. Our plant is one of the interesting sights of the city—in fact there is nothing like it in the country. The comments made by our past visitors convince us YOU WILL NOT REGRET YOUR VISIT. To reach our place take any street car going south, conductor will give a transfer to Thirty-fifth Street electric west on Thirty-fifth Street to Iron Street; or take a South Side Elevated train, get off at Thirty-fifth Street station, take a car going west and get off at Iron Street.

Terms

In order to successfully conduct our business, we sell goods only for cash. Orders in every instance must be accompanied with remittance in full; or we will ship C. O. D. when sufficient money is sent with order to cover freight charges. We never deviate from this rule.

Do not write us to "ship goods and we will remit." You may be rated a millionaire, but if you attend a sheriff, receiver or assignee sale your bid will not be entertained unless you complied with the terms, which are "Spot Cash." Therefore, in order for us to purchase from sales it is necessary to sell for "Spot Cash."

All orders sent us from previous catalogues or special lists will be filled from this catalogue—No. 95—until next one is issued. Values are subject to change, as we are daily purchasing different stocks of materials, etc., and will in all cases give purchaser benefit of lower prices.

We will allow following discounts when full amount accompanies order, AND IN NO OTHER CASE:

On Orders amounting to	$ 5.00 to $10.00,	2 per cent.
" "	10.00 to 20.00,	3 " "
" "	20.00 to 30.00,	4 " "
" "	30.00 to 50.00,	5 " "
All orders over	$50.00,	6 " "

These discounts will be allowed when sufficient money is sent to pay the **whole** order, and will not be allowed on C. O. D. orders.

We will accept orders for any amount, providing sufficient deposit is sent to cover freight charges, and will collect for balance C. O. D.

In writing be sure to enclose 2c. stamp for reply.

Shipping Directions

All orders are shipped without delay. We pay just as much attention to a small order as we do to a large one. We sell goods in any quantity to suit purchasers.

Goods delivered free of charge to any depot in Chicago. No charge for boxes, packing and cartage.

All claims must be made within three days.

Railroad Facilities

We have our own railroad facilities in our yards for carloads, and in this connection urge upon you the advisability of ordering carload lots, as it will make a big saving for you on rates. Owing to our enormous shipping we are able to secure very advantageous rates from the different freight companies.

Mail Shipments

We do not ship goods by mail **unless the amount of mail charges is included in remittance.** Send enough to cover and we will refund any money sent in excess of amount required. All goods sent by mail are strictly at purchaser's risk.

DRESS GOODS.

Our line of dress goods includes the best and nobbiest goods of the season. These goods were intended for the best city trade—and we can give you any thing you may want. The prices we quote are far below what others would ask you—make an honest comparison of prices, and we will secure your orders.

FINE DECORATED CHINAWARE.

We bought at sale six cars handsome decorated ware guaranteed strictly perfect in every way. These are not the cheap semi-granite or iron stone china so extensively advertised, but are genuine semi-vitreous porcelain, extra fine, thin ware. The decoration is under the glaze and cannot come off. These goods come in assorted colors. We have two designs, either in small spray flowers, or in large natural rose effects. The shapes are light and graceful. We guarantee absolute satisfaction. Send us your orders.

PURE NICKEL SAUCE PANS.---LIKE CUT.

These are not nickel plated. Clean and wholesome. Brand new, made from sheets of nickel prepared under patents by Dr. Flietman, of Iserlohn, Germany, and are not affected by acid or corrosion; milk and all farinaceous food will not stick. The purity and cleanliness of "pure nickel cooking sauce pans" have been certified to by the most prominent chemists, doctors, metallurgists, and upon their recommendations extensively adopted for households, hotels, etc. They are in every way superior to any utensils ever offered to the public for household use, and considering the absolute purity and durability are better and cheaper than copper utensils. They are made of one piece. They are not nickel plated, but pure nickel; no scouring; are brand new, in original wrappers.

The regular wholesale prices on these are $2.50 for No. 19, $3.50 for No. 20, $4.75 for No. 21. Our price:

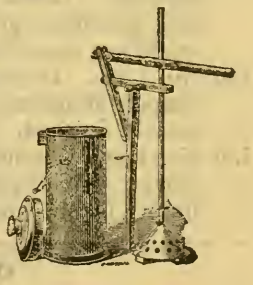
THE "TORNADO" CHURN.

Bought from sheriff's sale at about one-third the cost to make. This churn is the great butter getter. Capacity, four quarts to six gallons, working equally well upon either extreme or intermedial quantity, can be attached to any windmill or other power or run by hand. Even a child can run it. Having a strong bail, it is easily moved about, or placed in a hot or cold water tank, thereby securing results unobtainable in other churns. It is easy to handle, easy to clean, adapted to one cow or ten. Has improved methods of securing every particle of butter from the milk in the shortest possible time. Every family keeping one or more cows should have one of these churns.

Price.....each, $2.00. Shipping weight, 50 lbs.



CLOTHING

From the nature of our business and our system of buying our goods only at **Sheriffs', Receivers', Trustees', Assignees' and Manufacturers' Sales,** we can sell you clothing at lower prices than any firm on earth. We do not merely make this as an off-hand assertion, but we invite an honest comparison of prices we quote, with what others ask for the same goods. Our statements are guaranteed absolutely correct. We are constantly adding to this line, and each day brings us other stocks. **Be sure to write us if you do not find listed exactly what you want.**

RULES FOR MEASUREMENT.

COAT AND VEST.—With a tape line take the number of inches around the chest, close under the arms without coat on.

PANTS.—Take number of inches around waist and length of inside seam. If measurements are given correctly a perfect fit will be the result.

As Others See Us.

"The Iron Age" (the leading Hardware Journal of America), in its issue of December 8th, 1898, says:

THE CHICAGO HOUSE WRECKING COMPANY.

A remarkable catalogue is issued by the **Chicago House Wrecking Company**, West 35th and Iron Streets, Chicago. This is the company who purchased and dismantled the Chicago World's Fair buildings and the Chicago Postoffice building. They have also taken down a number of other structures in that city and elsewhere, making a business of disposing of the material thus available, which covers a great variety of products suitable for rebuilding. They have established large storage warehouses and yards for this purpose, conveniently located for railroad facilities, and have added merchandise and material purchased at sheriffs', receivers', trustees', assignees' and manufacturers' sales, establishing what they claim to be the largest mail order depot in the world for a great variety of goods. The catalogue shows how remarkable is this variety. Iron and steel roofing and siding, wrought-iron pipe, fittings, steam and gas fitters' supplies, wire of all kinds, wire rope, wire fencing, wire nails, bolts, cut nails, wood screws, rivets, emery wheels, platform and family scales, chains of all kinds, tackle blocks, hatchets and axes, shovels, locks wagons and plumbers' supplies, are merely mentioned as indicating how wide a range the catalogue covers.

"The Northwestern Lumberman" (the leading Lumber Journal of America), in its issue of October 15th, 1898, says:

A UNIQUE ENTERPRISE ON A HUGE SCALE.

One of the warrants for Chicago's boast of bigness is the plant of a concern which covers at one location by its warehouses and yards 500,000 square feet of space. It is that of the **Chicago House Wrecking Co.**, of its kind probably the most extensive in the world; the facts seem to indorse its claim to be the largest mail order depot in the world for merchandise and material purchased at sheriffs', receivers', trustees' and manufacturers' sales. A glance at its catalogue indicates that the company is in position to supply on demand practically anything and everything needed for the complete furnishing of a home, from the most humble to the most palatial; to equip in every department the most extensive of power plants; to supply every need, from spikes and telegraph instruments to rails and engines for a railway system; to furnish a hotel within and without; to equip a big hospital or build an ocean liner. In fact, the extent and diversity of its possibilities in building and equipping material are practically inexhaustible.

The **Chicago House Wrecking Company** wrecked the World's Fair buildings, whose original cost was $33,000,000, and paid for them, inclusive of all material, but $80,000. The Chicago Postoffice and Sub-treasury building cost originally $7,000,000; for this property the company paid $15,519. For three other big properties in Chicago which cost to erect and equip an aggregate of $1,550,000, the company paid $31,500, all these purchases including the entire material in each instance, and it is this class of material always in practically the same condition as when it came from the manufacturers' and builders' hands, that this company offers for sale. The **Chicago House Wrecking Company's** plant at West 35th and Iron Streets, Chicago, is one of the big commercial show places of the city.

"The National Stockman and Farmer," of Pittsburg, Pa. (one of the leading Farm Journals of America), speaking editorially, says, in its issue of Dec. 1st, 1898:

FARMERS BUYING AT WHOLESALE.

We have long advocated this practice for many of the necessities of the farm, but it is not always practicable. In looking over the wonderfully interesting catalogue of the **Chicago House Wrecking Co.**, however, we see listed and priced a great many farm necessities that we certainly should purchase from them rather than pay the usual high retail prices.

To illustrate, we see in their catalogue prices named on such articles as iron roofing, siding, galvanized wire, barb wire, mixed wire nails, staples, wood screws, galvanized iron troughs, barn door hangers, log chains, etc.

Let a few farmers get together and place a combined order for what they may need along such lines, and they will save a lot of money.

"The Weekly Florists' Review" (the leading Florists' Paper of America), says in its issue of November 3d, 1898:

EVERYTHING.

The above seems the only word to use in describing the contents of the catalogue of the **Chicago House Wrecking Co.**, of which a copy has been sent us, and their stock must be something immense. They carry new as well as second-hand material and must have acres of surface to store such a miscellaneous stock of heavy goods. They have worked up quite a trade with florists in piping, hardware of all sorts and the wire known as "shorts." This is short lengths of telegraph wire ranging from 65 feet upward and which is just as good to make rose stakes from as the full lengths and is much cheaper. The second-hand boiler flues supplied by this firm have been considerably used by the Chicago florists for posts under iron gutters in greenhouse construction and have also been used to take the place of the usual cast iron at much less cost than the pipe, the lengths being connected by collar joints.
